

DUPONT WEATHERIZATION SYSTEMS COMMERCIAL CERTIFIED INSTALLER PROGRAM

Expand business opportunities
by providing support and peace of mind
with every installation.

Tyvek.

Build awareness and expand business opportunities, all with the help of DuPont.

You already trust the quality that comes with DuPont Weatherization Systems products. Now find out the many rewards that come from joining the DuPont Commercial Certified Installer Network.

The DuPont Weatherization Systems Commercial Certified Installer Program helps you provide superior service and support for general contractors and architects when it comes to installing DuPont Weatherization Systems products. A comprehensive training program gives you the opportunity to learn installation methods and increase your safety knowledge.

Specialized marketing and advertising materials let builders know you have been trained to the highest standards as an installer of DuPont Weatherization Systems products. Your general contractors and architects will get peace of mind knowing their projects are done right, with fewer chances of installation-related issues or callbacks. And they'll know you use quality products all backed by the DuPont™ Tyvek® Specialist Network and the building science experts at DuPont.

Your commitment

You take pride in a quality installation. In fact, professionals like you are one of the main reasons why DuPont™ Tyvek® has been successfully installed on thousands of buildings. Dedication to professionalism, courtesy and best construction practices help make the DuPont™ Tyvek® brand a name that architects and building owners can trust. Your continued efforts to inform your customers about the benefits of DuPont Weatherization Systems will keep them up-to-date on local building codes and practices.

By participating in the DuPont Weatherization Systems Commercial Certified Installer Program, you will receive these tools and rewards to help you succeed.

DuPont Weatherization Systems Commercial Certified Installer Training and Education Program

Selected installers will attend a training session which includes specialized classroom and in-field product installation and safety training. Installers receive everything they need to provide proper installations for all DuPont Weatherization Systems products. DuPont Weatherization Systems Certified Installers are also trained in important code requirements for installing DuPont™ Tyvek®.

DuPont Weatherization Products 10 Year Limited Warranty

DuPont Weatherization products comes backed by a 10-Year Limited Warranty from DuPont, a company dedicated to providing you with innovative and reliable products for over 200 years.

Specialized Marketing and Advertising Materials

You will receive a DuPont Weatherization Systems Certified Installer Marketing Kit that includes advertising and sales materials to support your Certified Installer services.

DuPont™ Tyvek® Lead Management Program

Your DuPont™ Tyvek® Specialist will proactively generate demand and may provide you with a list of commercial projects in your area.

National Advertising

DuPont supports your efforts with national print and online advertising in trade publications. Ads focus on increasing awareness of the benefits of DuPont Weatherization Systems products with target audiences.

Locator Program

Certified Installers will be included in a select list available through the DuPont™ Tyvek® customer service number (1-800-44-Tyvek) and at www.construction.tyvek.com (for USA) and www.construction.tyvek.ca (for Canada).

DuPont™ Tyvek® Logo, Trademark and Brand Usage

The opportunity to display the DuPont™ Tyvek® logo as well as the DuPont Certified Installer logo and incorporate usage of the DuPont™ Tyvek® trademark into your sales and marketing collateral, as defined by the DuPont Trademark Guidelines.

DuPont™ Tyvek® Specialist Network

A national group of highly-trained field representatives is available to assist you with your installations. From the latest updates on building codes, to on-site consulting and training, your local DuPont™ Tyvek® Specialist will help make sure the job gets done right.
